

EASTERN PARTNERSHIP PLATFORM 3: “Energy Security”

2nd WORKSHOP OF EASTERN PARTNERSHIP ENERGY REGULATORY BODIES

18-19 June 2013 – Tbilisi, Georgia

REGULATORY TOOLS IN SUPPORT OF INFRASTRUCTURE DEVELOPMENT, INTERCONNECTION AND DIVERSIFICATION OF SUPPLIES

Workshop objectives: Building on the success of the 1st workshop of Eastern Partnership energy regulators held in May 2012 in Vienna, the objective of this second workshop is to further deepen the exchange of regulatory experiences and practices among the regulators of the Eastern Partnership, while focusing on the role and tools of Eastern partnership regulatory bodies in support of infrastructure development, interconnection and diversification of supplies.

Organization: Invited speakers will be asked to give brief presentations (5-10 minutes each) on their experience and current challenges related to the topic of the session. Presentations will be followed by a discussion with workshop participants.

Expected outcome: The discussions should reveal in which way two workshops held in 2012 and 2013 have contributed to the overall objectives of the Eastern Partnership in the field of energy regulatory convergence and provide the basis for concrete input and recommendations to the forthcoming meeting of the Platform on Energy Security of the Eastern Partnership in July 2013 and the Eastern Partnership Summit in November 2013 in Vilnius.

Target audience: Representatives of the Eastern Partnership’s regulatory community, i.e. regulatory bodies of Armenia, Azerbaijan, Belarus, Georgia, Moldova, Ukraine and the 27 EU Member States. Representatives of regional associations of energy Regulators, the Council of European Energy Regulators (CEER), the Energy Regulators Regional Association (ERRA), Energy Community Regulatory Board (ECRB), International Financial Institutions and the INOGATE team will also be invited.

Interpretation: Simultaneous interpretation English/Russian
